Baron Oscar Dickson, of Gothenburg, who has done so much to promote the scientific study of the Arctic regions, has promised Dr. Nabset a most valuable addition to the outfit of his North Pole Expedition in the shape of a large dynamo machine for the production of electric light. It will be the first time an Arctic expedition has had electric light at its disposal.

The Supreme Court of Massachusetts recently decided that the use of the word "damn" is not profamity. Apropos, there is a story about a Connecticut olergyman, who, in a sermon about profanity, said the word "damn" might be rightfully used by respectable people as an emphatic expression. The next day he changed his mind on the subject, when he met one of the lady members of his flock, who salated him thus: "Good morning, Mr. That was a dama good sermen of yours yesterday!"

Photography by means of a connera sent un attached to a balloon has been for some time practised, but similar results are now obtained much more easily, thanks to to the incensity of M. Wenz, of Rheims, who has devised a kite On Homean.which will take the place of the balloon. The shape of this kite is a quadilateral of two isosceles triangles base to base, the largest undermost. and the camera, unde of wood and cardboard with aluminium mountings, for the sake of lightness, is fastened to the back of the kite. The exposure is made by a cord attached to the camera, and some very moccessful results have

been already obtained.
